

## Appendix F - Cisco's Deposition Designations

Plaintiff Cisco Systems, Inc. ("Cisco") respectfully submits its Deposition Designations for Trial. Cisco reserves the right to supplement, amend, or modify its designations as the case proceeds toward the final pre-trial conference and trial, and as the parties continue to meet and confer regarding witnesses. Specifically, the parties plan to further meet and confer to determine whether specific witnesses will be called live or by deposition. Cisco reserves the right to modify its deposition designations following this meet and confer.

Cisco reserves the right to object to Arista's usage of any deposition testimony, whether designated by Cisco or by Arista. Cisco further reserves the right to supplement, amend, or modify its objections to Arista's Deposition Designations. Cisco also reserves the right to object to any deposition designations to the extent they should be excluded or limited by any ruling of the Court, such as the Court's rulings on Cisco's *Daubert* motions or Cisco's motions *in limine*. Cisco further reserves the right to assert objections to any deposition testimony under Federal Rule of Evidence 402 and 403 based upon the issues presented at trial, the evidence to date, and the purpose for which Arista offers the testimony.

Cisco submits that Arista has waived any objections to the form of a question that were not raised at the deposition itself. In response to Arista's objections to Cisco's designations, Cisco responds that Cisco's designations are relevant to the claims and defenses in this case, they are not hearsay or fall under one of the hearsay exceptions, they have the proper foundation, and they are not improper opinion.

Regarding Arista's objections to Cisco's counter designations, Cisco understands that Arista now objects to some unspecified number of counter designations as being beyond the scope and asks that the Court strike the entirety of the counter-designation for those witnesses, including any testimony that was within the scope of Arista's initial designation. To the extent that any of Cisco's counter designations are later deemed to be inadmissible due to being beyond the scope of Arista's initial designations, Cisco respectfully submits that any such decision should only apply to the testimony which is found to be beyond the scope, and not to any other counter designation that is found to be within the scope of Arista's designations. In addition, Cisco objects that many of Arista's counter designations were beyond the scope of Cisco's designations and Arista should not be permitted to use those designations at trial.

Cisco provides the codes below for its objections to Arista's deposition designations:
